About RockStrength

Rockstrength is a global leader in innovative ceiling, wall, and suspension system solutions for commercial and residential spaces. Founded in 1984, we are a publicly traded company known for our commitment to quality, integrity, and customer satisfaction. Our diverse product range includes acoustic, fire-protective, hygienic, metal, designer, and skimmed plaster ceilings, as well as suspension systems, insulation, and drywalls. With over 30 years of experience, we deliver sustainable, high-performance interior solutions that enhance comfort, efficiency, and aesthetics across sectors from homes and offices to healthcare and high-rise buildings. At Rockstrength, we continue to grow through innovation, collaboration, and a passion for excellence.

**"A beautiful ceiling lifts more than just the roof—
it lifts the whole space."**

Why Rockstrength?

OUR VALUES: BUILDING WITH PURPOSE

Accountability :

We take ownership of our actions and deliver on our promises. With transparency and integrity, we ensure responsibility at every step—towards our clients, team, and stakeholders.

Sustainability :

We are committed to making choices that are responsible and future-forward. From materials to processes, our focus on sustainability drives us to protect resources and reduce our environmental impact.

People-Centric :

We believe in putting people first—whether it's our team, customers, or community. By nurturing talent and fostering a culture of empathy and inclusion, we create an environment where everyone can thrive.

Partnership :

We grow through collaboration. Strong relationships with our clients, employees, and partners are the cornerstone of our mutual success, built on trust, respect, and shared goals.

Commitment :

Excellence is our standard. We are dedicated to push boundaries, staying innovative, and consistently delivering value in everything we do.
